GUNGUN

+919518468226 ◇ gungun16912@gmail.com

OBJECTIVE

To enhance my professional skills, capabilities and knowledge, I aim to join an interdisciplinary team where I can contribute effectively and grow. Ready to apply theoretical learning to practical scenarios and adapt to dynamic work environments. Excited to bring enthusiasm, dedication, and a fresh perspective to the team. Seeking entry-level opportunities in organizations that value dedication and offer challenging responsibilities.

EDUCATION

BTECH, INFORMATION TECHNOLOGY

Bharati Vidyapeeth College of Engineering • New Delhi • 8.99

XII, CBSE

R.E.D Sr. Sec. School • Chhuchhakwas • 9.89

SKILLS

Programming Language	C++
Technical Skills	JavaScript, HTML 5, CSS 3
Library	ReactJs, Redux Toolkit
Framework	TailwindCSS

PROJECTS

Shopping App Developed a shopping app utilizing HTML, JavaScript, React, and Tailwind CSS, integrating Redux Toolkit for streamlined state management, and incorporating routing functionality for seamless redirection to different pages. The project includes comprehensive tasks such as layout creation, product card rendering, interactive selection features, and cart functionality. It provides users with a comprehensive shopping experience through seamless navigation and robust features. (click here)

Portfolio Crafted a responsive portfolio website using React.js and Tailwind CSS, demonstrating adeptness in contemporary front-end development methodologies. Implemented dynamic content rendering and interactive components to effectively showcase projects and skills. Continuously updating for further enhancements.

Gallery Filter The Gallery Filter, crafted with HTML, CSS, and JavaScript, offers users an immersive image browsing experience. It simplifies sorting and viewing by categories or tags, enabling smooth exploration without the need for page reloads. Users can seamlessly navigate through images, enhancing their browsing journey. Weather App The Weather App, designed with HTML, CSS, and JavaScript, delivers real-time weather updates through API integration. It dynamically fetches and updates data, ensuring a seamless user experience. (Click here)

CERTIFICATIONS

- Frontend Development Training (Brain Mentors Pvt. Ltd.)
- Frontend Intern at Tech-A-Intern (Sept'23 – Oct'23)

RESPONSIBILITY

- **Campus Blocks (Sept'23 - Present)** : In my role as Head of the society, I oversaw a large team of members, ensuring effective coordination and leading multiple events. My responsibilities included event planning, team management, and ensuring successful execution. I fostered a collaborative environment, empowering team members to achieve collective goals and uphold the society's mission.

- **Annual Tech Fest (March'24)** : Efficiently and systematically conducted the coding Quiz (Geek Out) in Annual Tech Fest, 2024, ensuring smooth operation and engaging participation. Implemented meticulous planning and effective coordination to deliver a successful and memorable event experience for participants.
