+919518468226 ◇ [gungun16912@gmail.com](mailto:gungun16912@gmail.com)

## OBJECTIVE

---

To enhance my professional skills, capabilities and knowledge, I aim to join an interdisciplinary team where I can contribute effectively and grow. Ready to apply theoretical learning to practical scenarios and adapt to dynamic work environments. Excited to bring enthusiasm, dedication, and a fresh perspective to the team. Seeking entry-level opportunities in organizations that value dedication and offer challenging responsibilities.

## EDUCATION

---

### BTECH, INFORMATION TECHNOLOGY

Bharati Vidyapeeth College of Engineering • New Delhi • 9.01

### XII, CBSE

R.E.D Sr. Sec. School • Chhuchhakwas • 9.89

## SKILLS

---

<b>Technical Skills</b>	C++, SQL, JavaScript, HTML 5, CSS 3, OOPS
<b>Library</b>	ReactJS, Redux Toolkit
<b>Framework</b>	TailwindCSS

## PROJECTS

---

**Shopping App** : Developed an e-commerce application using HTML, JavaScript, React, and Tailwind CSS, integrating Redux Toolkit for streamlined state management, and implemented user authentication using Auth0 for secure login and authorization, enhancing the user experience. The application boasts seamless routing for intuitive navigation between product listings, cart, and other pages. Additionally, it features dynamic product cards with interactive selection features and robust cart functionality for adding, removing, and managing product quantities. This project provides users with a comprehensive and secure shopping experience.

**Portfolio** : Crafted a responsive portfolio website using React.js and Tailwind CSS, demonstrating adeptness in contemporary front-end development methodologies. Implemented dynamic content rendering and interactive components to effectively showcase projects and skills. ([click here](#))

**Gallery Filter** : The Gallery Filter, crafted with HTML, CSS, and JavaScript, offers users an immersive image browsing experience. It simplifies sorting and viewing by categories or tags, enabling smooth exploration without the need for page reloads. Users can seamlessly navigate through images, enhancing their browsing journey. ([Click here](#))

**Weather App** : The Weather App, designed with HTML, CSS, and JavaScript, delivers real-time weather updates through API integration. It dynamically fetches and updates data, ensuring a seamless user experience. ([Click here](#))

## CERTIFICATIONS

---

- MERN Stack Training (Brain Mentors Pvt. Ltd.)
- Frontend Intern at Tech-A-Intern (Sept'23 – Oct'23)

## RESPONSIBILITY

---

- **Campus Blocks (Sept'23 - Present)** : In my role as Head of the society, I oversaw a large team of members, ensuring effective coordination and leading multiple events. My responsibilities included event planning, team management, and ensuring successful execution. I fostered a collaborative environment, empowering team members to achieve collective goals and uphold the society's mission.
- **Annual Tech Fest (March'24)** : Efficiently and systematically conducted the coding Quiz (Geek Out) in Annual Tech Fest, 2024, ensuring smooth operation and engaging participation. Implemented meticulous planning and effective coordination to deliver a successful and memorable event experience for participants.
